Re: PS Docket 06-229 Notice of Ex Parte

Dear Ms. Dortch:

On November 19, 2009, Jennifer Holtz and Gregory Rohde of e-Copernicus and Sree Tangella, CEO of New EA, Inc. dba Flow Mobile met with Commissioner Michael Copps and John Giusti.

During the meeting, Flow Mobile discussed the recent round of reply comments on the 700 MHz waiver and urged the Commission to dismiss the false assertions made in the comments filed by the Public Safety Spectrum Trust (PSST) that the Flow Mobile technology is incompatible and would create interference. We reiterated that the PSST had not taken sufficient time to study Flow Mobile's technology to support any such claims and that the PSST has not taken into consideration the views of state and local public safety officials who desire to have mobile broadband service. Flow Mobile also disputed the false claims of other filings, as discussed in its reply comments, and urged the Commission to impose a fair standard in considering all the waiver requests.

In addition, Flow Mobile encouraged the Commission to avoid endorsing a single proprietary standard and to allow for innovation and open standards in the 700 MHz band.

/s/ Sree Tangella
